The Rezoning of the 155 acre Marble property was approved by the City Council last week. This land has been for sale as industrial property for years. But has not been saleable because it is no longer suited for general industrial usage.

The regional planning Commission in a report released on the 14th of September 1961 stated.... "That there is approximately 7000 acres of industrial zoned land in excess of the needs of the Southwest population forecast for 1980"

WHY HAS THIS SURVEY BEEN IGNORED?

Ask yourself, your friends and neighbors why this Rezoning issue has become a political football?
